HIGH ARMY HEADS HIT IN BLAST

American Officers Escape Injury Leaving Reviewing Platform Only a Few Minutes Before

Shanghai—The five highest Japanese officials at Shanghai, who played the most important roles in the recent Sino-Japanese engagement, were wounded Friday by a bomb explosion aimed to annihilate Japan's Abnagai leaders. The bomb was thrown on the reviewing platform at a Japanese military parade.

Japanese marines investigating the attack surrounded the home of W. S. Hibbard, an American employed by the Shanghai department of public works, which has charge of Hongkew park, where the explosion occurred. Hibbard was understood to be undergoing questioning.

Seven men had been arrested, including the park keeper, who was said to be a foreigner. One man

Harbin, Manchuria—Traffic on the east branch of the Chinese eastern railway between Harbin and Vladivostok was disrupted Friday when the railway track was torn up 125 miles east of Harbin.

Japanese attributed the destruction to Chinese guerrillas. A passenger train that left here for Vladivostok was forced to return.

Japanese headquarters announced that five Japanese soldiers were killed and five were wounded in driving off Chinese on the Kirmintun railway.

was severely beaten by the Japanese crowd. Three of the men were believed to be Koreans.

One of the three, Fimo Ki, 25, was believed to be the actual thrower of the bomb. He was held at Japanese gendarme headquarters.

Fifteen thousand Japanese celebrating Emperor Hirohito's birthday, saw a bomb explode at the feet of officials on the reviewing stand where they were an easy target for the bombers. The crowd was singing the Japanese national anthem, "Kimigayo."

The wounded, respective heads of the Japanese military, naval, diplomatic, and consular services here, were:

Minister Mamoru Shigemitsu; right leg broken; will be incapacitated for four or five months.

Admiral Kichisaburo Nomura, commanding naval forces, wounded in face and eyes, may lose eyesight.

General Hishinori Shirakawa, commanding Japanese troops, wounded in the face.

Consul-General Kuramatsu Mura, left leg injured, expected to recover in three or four weeks.

Gen. Kenkichi Uyeda, who commanded the 9th division in the Shanghai fighting, left arm injured.

Lieut. Col. Walter Drysdale, American military attaché, and the French, British, and Italian military attachés left the platform only a few seconds before the bomb exploded. Another bomb fell on the platform but did not explode.

There were 10 men on the platform at the time of the explosion. In addition to the wounded officials, Dr. T. Kawabata, a leader among Japanese civilians, was slightly hurt.

Japanese military constructed a barricade around the second bomb. It was found on the ground near the reviewing stand. The bomb consisted of a metal box one foot long, four inches wide, and two inches deep, and was believed to contain nitroglycerin.

Hongkew park is technically under the jurisdiction of the police of the international settlement but there were only a few police there this morning and all had left the park before the Japanese celebration began.

British Minister Sir Miles Lampson, who with American Minister Nelson Johnson had drafted a compromise apparently acceptable to the Chinese and Japanese, called at the Japanese consulate to express his regrets.

Diplomats believed truce negotiations would be postponed indefinitely.

Order Martial Law

The Japanese established rigid martial law in the Hongkew area and in North Szechuen road.

Japanese believed Consul-General Mural would resign in keeping with the Japanese tradition that inferior officers are responsible for the safety of their superiors. It was considered likely that a court martial would try the chief of the consular police and the commander of gendarmes.

An army communique announced Shirakawa had 30 wounds, which were especially serious about the face. He will be in the hospital a month. Uyeda had 15 wounds, his left foot was smashed several bones in the right foot were injured and both hands were broken. He will be in the hospital six weeks.

Knutson Slated for District Endorsement; Hennepin Factional Row Stirs Dems

St. Paul—Already strife torn by the defection of a strong "rump" movement, the state Democratic party today sought to quell a new disturbance in the Hennepin county delegation's ranks.

While business of the party's convention to endorse candidates for state offices waited, a compromise committee sought to smooth out the differences over which faction of the Hennepin county group was "official."

Republican leaders meanwhile discussed the role resubmission of the 18th amendment will play in Saturday's state convention. Four district groups will come to the convention seeking a statement for a referendum on prohibition. Generally it was felt that a nine-man slate of congressional candidates would be picked with sitting congressmen endorsed.

Sentiment at the Democratic meeting was attended by more than 60 county chairmen favored the endorsement of A. A. Van Dyke, St. Paul, former state commander of the American Legion, for the gubernatorial nomination.

The sixth district Republican convention meeting in St. Cloud Friday was expected to endorse sitting congressman, Harold Knutson, of St. Cloud. Claude R. MacKenzie, Gaylord, was expected to receive the district's backing for national committeeman.

The nominating sub-committee later presented a slate of candidates to the meeting. Van Dyke was the gubernatorial choice. Others of the slate were Herman M. Johnson, Starbuck, former Farmer-Laborite, for lieutenant governor; John W. Gannon, Hibbing, attorney general; Willebad Eibner, New Ulm, secretary of state; J. A. Howe, Cokato, state treasurer and Viggo Justesen, Askov, railroad and warehouse commissioner.

The sub-committee also voted to make the following recommendations for the nominations for representatives at large:

Ben Loeffler, Albert Lea; Anna Dieckey Olson, Northfield; E. G. Quamme, St. Paul; L. C. Hodgson, St. Paul; Einar Hoidal, Minneapolis; Andrew Nelson, Duluth; Senator Robert C. Bell, Detroit Lakes; J. A. Cashel, Worthington, and Emil Holmes, Onamia.

SENATE FINANCE UNIT RAISES BEVERAGE TAX TO INCREASE REVENUE

Two-Hundred Million Dollar Economy Bill Already has Dwindled to Near the \$100,000,000 Mark

Spring "Pick Up" in Business Noted

St. Paul—Two signs of the long awaited spring "pick up" in business developed Friday as the month of April drew near a close.

One of the most important developments was the beginning of production at the St. Paul Ford plant. Increasing operations will increase the present staff of 930 men toward a peak staff of 2,500 men, C. B. Ostrander, manager of the plant said.

Transfer companies reported heavy moving activities the past week in preparation for May 1, moving day. Business has been heavy all week necessitating the hiring of additional staffs. The peak is expected to be reached Saturday.

Washington—Substantial revenue increases in the 1932 revenue bill resulted Friday from action of the senate finance committee in raising beverage taxes almost universally, including the levies on brewers' wort and malt.

The tax on wort was raised from the house rate of 5 cents a gallon to 10 cents. The malt syrup tax was changed from 35 cents a gallon to 4 cents a pound. Treasury officials who collaborated with the committee estimated this tax would amount to 46 cents a gallon.

The committee broadened the exemptions in this category to include products sold for the manufacture of food or textiles.

Grape concentrates were put on a gallon basis instead of the ad valorem basis agreed upon in the house. The tax was made 44 cents a gallon where the house levy was 40 per cent.

The tax on legal cereal beverages was lowered from two cents to 1 1/4 cents a gallon, at an estimated revenue loss of \$1,000,000.

It was agreed that the committee would recommend an 11 cents a gallon tax on unfermented grape juice, nine cents above the house level. Carbonated waters were made

Washington—A proposal to limit the income of any person in the United States to \$1,000,000 a year and to limit gifts and inheritances to an aggregate of \$5,000,000 for any person was voted down Friday in the senate. Senator Long, Deb. La., offered the resolution which would have instructed the senate finance committee to frame the tax bill in such a way that "we will put a limit to swollen fortunes."

subject to a five cent a gallon tax, an increase of three cents, and still water was retained at two cents a gallon.

No estimates were forthcoming on the extent of the revenue increase. The house hoped to raise \$46,000,000 through the taxes on malt, wort and grape concentrates, and \$10,000,000 on the other beverages.

The committee adjourned until 2 o'clock when it will continue the consideration of fur taxes, on which it reached no decision this morning.

Jury Still Deadlocked Honor Trial

Courtroom, Honolulu, T. H.—The jury in the Joe Kahahawai honor slaying trial, still deadlocked, resumed deliberations Friday under the watchful eyes of a heavily armed police cordon augmented by radio patrol cars spiked with machine guns and riot guns.

The police lines were drawn about the old judiciary building, scene of the deliberations, as a precautionary measure.

The measures were taken to prevent any new outbreak of racial disturbances.

TRACE COUPLE AND BABY IN CANADA IN LINDBERGH SEARCH

Yorkton, Sask.—A man, who gave his name as H. H. Young, a woman, and a healthy looking child with curly blonde hair and blue eyes who fitted the description of the kidnapped son of Col Charles Lindbergh, registered at a rooming house on Betts avenue here under a fictitious name late Wednesday evening and caused no small degree of excitement in the city, Thursday.

The trio arrived in the city late Wednesday evening, traveling by automobile with an Alberta license plate, and registered at the rooming house, the man signing the register as W. S. Mythe, of no address.

While police officers seemed confident that Mr. and Mrs. Young were not the abductors of the Lindbergh baby and that the child with them was their own, they were very reluctant to make any comment, late Thursday evening.

\$1,800,000 RAIL LOAN IS APPROVED

Washington—The Interstate Commerce commission Friday announced its approval of a \$1,800,000 loan to the St. Louis-San Francisco railway from the reconstruction finance corporation. The loan was the second approved by the commission out of the Frisco's original application for \$12,717,814, an advance of \$2,805,175 having been authorized on Feb. 24.

SUPPORTS ARMY AND NAVY SERVICE LOSING SAVINGS \$1,500,000

Broadens Exemptions in Beverages to Include Products Sold for Manufacture of Food or Textiles

President, Cabinet Ready to Take Cut

Washington—President Hoover and his entire cabinet appear ready to join government clerks in taking a pay cut under the new economy bill, although they are legally exempt.

The president will take the heaviest cut amounting to \$7,975 on his \$75,000 annual salary making it \$67,025. He had informed congressmen of his willingness to accept the reduction. Cabinet members receive \$15,000 annually and their cut would reduce their pay to \$13,025.

BULLETIN!
Washington—Rep. LaGuardia, Rep. N. Y., charged in the house Friday that "a slimy lobbyist" had been seeking a provision on the economy bill providing for sale of \$50,000,000 worth of piers belonging to the army and navy transport service.

Washington—The house Friday struck from the omnibus economy bill three sections which would have abolished the army and navy transport service and the Panama Railroad Steamship line. Estimated savings lost in this action were said by members of the economy committee to be \$1,500,000.

The vote was 175 to 32.

Decrease Economies

The house overruled its leadership and struck out the sections providing the gradual withdrawal of federal appropriations for vocational education.

Rep. LaGuardia, Rep. N. Y., was in the forefront of the attack made by the successful coalition. He accused the economy committee of "grabbing in desperation" at the vocational fund.

The house by a viva voce vote decreased economies by another \$1,600,000 in voting to increase expenditures for government printing from \$9,000,000 to \$10,000,000. Last year \$14,500,000 was expended for this item, and the economy committee had offered a \$5,000,000 cut.

The amendment to the section was offered by Rep. Stevenson, Dem., S. C., and also increased the legislative printing item \$500,000 to \$2,500,000, included in the total.

Reject Furlough Plan

The \$200,000,000 Democratic economy bill already has dwindled to \$136,000,000 and several large and controversial items remain to be acted upon by a house which is working its own will over the protestations of its leaders.

The house Thursday night by 183 to 84 reaffirmed its approval for an 11 per cent reduction in all government salaries over \$2,500. But this will save only \$12,000,000. The economy committee and the Democratic leaders had wanted to cut all salaries above \$1,000 to save \$67,000,000.

Before approving the pay cut, the house by 176 to 159 rejected President Hoover's "furlough" plan designed to place the government service on the equivalent of a five-day week. This had been estimated to save \$30,000,000 a year.

The house also rejected the committee plan to eliminate Saturday half-holidays. This cut \$20,000,000 more from the total savings in the bill. Consolidation of the war and navy departments to save \$50,000,000 remains to be acted upon and is believed doomed to defeat. Likewise the proposed \$48,000,000 reduction in veterans' benefits.

In addition to the 11 per cent pay cut, the house approved items eliminating extra pay for overtime work; reducing travel allowances, including those of congressmen; requiring compulsory retirement for age; preventing promotions and filling vacancies during the next fiscal year; and providing that in reduction of personnel married women whose husbands also are working for the government shall be let out before any other persons in the same branch are dismissed.

The \$12,000 and \$15,000 salaries of members of the federal farm board, shipping board, federal reserve board, interstate commerce commission, tariff commission, reconstruction finance corporation and board of railway mediation were reduced to \$10,000.

MUCH NEEDED RAIN IN PROSPECT FOR SECTION OF STATE

BUREAU PREDICTS RAIN OVER WIDE AREA TONIGHT AND SATURDAY

St. Paul—The month of April will go out, fittingly Saturday with showers, the United States weather bureau reported Friday.

All Minnesota points which reported slight precipitation Thursday night will again be visited Friday and Saturday with rain. The storm which has brought the rain also includes the Dakotas.

Friday was the eighth straight day of precipitation in the Black Hills of South Dakota. The rainfall at Deadwood, S. D., was recorded as the heaviest in three years. Total precipitation for the present storm has been five inches, which is an inch above normal for the month of April.

Farmers were reported enthusiastic over the rain. Because of cold weather many crops are considerably retarded and spring frosts will not cause any damage, it was said.

SMALLER POWERS TARGETS IN U. S.-BRITIAN MOVE

Geneva—The United States and Great Britain opened a counter-attack Friday against the organized offensive of the smaller powers to classify as aggressive warships of more than 10,000 tons.

The small powers would make the heavy warships subject to abolition or internationalization without the league.

Britain and the United States were moderately supported in their effort by Japan and weakly by France.

The United States is unequivocally opposed to the classification of battleships as an offensive weapon. Senator Claude Swanson Friday told the naval commission of the world disarmament conference.

Swanson called the battleship the backbone of the United States defense system.

"We are a threat to no nation. There is nobody's territory we cover," Swanson said. He emphasized the American obligation to keep the Panama canal open in peace or war and to defend far eastern possessions.

"If we had completed our naval program after the world war, it is conceded that we would have been supreme on the seas, but we agreed to be a threat to no nation," Swanson said.

Vice-Admiral A. D. P. R. Pound, of Britain, supporting Senator Swanson, said, "the verdict against capital ships on all three counts should be not guilty."

POSSESSIONS TO SUPPORT HOOVER AND ROOSEVELT

NEW YORK GOVERNOR CONTINUES TO HO-D LEAD IN PENNSYLVANIA

Philadelphia—Gov. Franklin D. Roosevelt, of New York, maintained his lead approximating 20,000 votes over Alfred E. Smith as scattered counties reported votes Friday on the Democratic preferential choice for president.

In the face of returns came conflicting claims from the Roosevelt and Smith leaders. The former insisted they would have 58 of the 76 Pennsylvania delegates at the Democratic national convention while State Chairman John R. Collins, who backed Smith, said the district delegates would be "almost evenly divided."

Pledged delegates in Pennsylvania are only technically bound to stand by their candidate so long as he has a fair chance of winning. Only the pledged delegates at large are morally bound by the statewide preferential vote.

With 6501 of the 8181 districts in the state reported, Roosevelt had 99,135 votes and Smith 78,980.

Juneau, Alaska—Alaska's delegates to the two national political conventions in Chicago will be pledged to Herbert Hoover and Franklin D. Roosevelt, it was indicated today. There will be six delegates to the Democratic national convention and two to the Republican.

Honolulu, T. H.—Gov. Franklin D. Roosevelt of New York will have the support of Hawaii's six delegates to the Democratic national convention. A territorial convention Thursday voted to support the New Yorker's candidacy.

Present Newlyweds with Flock of Chickens

Fergus Falls—Mr. and Mrs. Ralph Julius Friday had a flock of chickens well under way as the result of a chicken shower presented in their honor last night by friends. Two dozen live chickens were brought for the newly married couple instead of the usual household gifts.

ENLIST 8 STATES HUNT FOR SLAYERS WEST ST. PAUL MAN

MEN ARE ALSO WANTED IN WEST PLAINS, MO., FOR MURDER

St. Paul—Cooperation of crime fighting forces of eight states was enlisted Friday in the hunt for the slayers of George E. Anderson, West St. Paul, whose body was found near Webster, Wis., this week.

One thousand telegrams were sent out by Melvin G. Passolt, superintendent of the state bureau of criminal apprehension, for two men known as Alvin Karpis and Fred Barker and their two women companions.

The two men are also wanted in West Plains, Mo., for a murder. Passolt Friday learned that Anderson was the step-father of Barker. The states which are cooperating in the hunt are Illinois, the Dakotas, Iowa, Nebraska, Wisconsin, Michigan and Minnesota.

The men owned three automobiles.

NICARAGUAN GUARD LED BY MARINES REPULSES REBELS

Managua, Nicaragua—Nicaraguan national guardsmen led by United States marines captured the main insurrectionist camp near the Honduran border Friday and killed 10 insurrectionists, including Florencio Silva, chief aide to Augustino Sando.

Correspondence left by the insurrectionists when they retreated indicated Sando took part in the fighting.

Marine Sergeants John Hamas of Philadelphia, John Burns of Burgeau, N. C., and Roy Vogel of Stockton, Calif., led the guardia. Their

patrol consisted of 45 men and the insurrectionist force was estimated to have been about 450.

The defenders of the camp deployed along a 600-yard firing line. They made defenses of logs and rocks which were taken by the guardia. The insurrectionists were taken by surprise and forced to retreat across a ravine, from where they returned the guardia fire.

Vogel's men, carrying two Thompsons and two Browning guns, frustrated an insurrectionist attempt at a flank movement. The defenders were well armed with automatic

rifles, pistols, grenades and bombs.

The insurrectionists were believed to have fled across the Honduran border. It was indicated from the condition of their camp that they were packed and ready to move, but not in the direction they were driven by the guardia.

The Nicaraguan press quoted American Minister Hanna as saying that all marines would be withdrawn from Nicaragua after the November elections and that not even a marine guard would be left at the American legation.

GOVERNORS FETED AT WHITE HOUSE

Washington—Twenty-six governors, including at least two who have hopes of living in the White House next year, were on their way home Friday with pleasant memories of a brilliant White House dinner given by President and Mrs. Hoover Thursday night in their honor.

The 27th governor invited, Floyd B. Olson of Minnesota, arrived in Washington from the governors' conference at Richmond, but did not appear at the White House. Olson said the "press of official business" made it imperative for him to cancel his acceptance.

"It was thoroughly enjoyable," said Gov. Franklin D. Roosevelt of New York, Democratic candidate for the presidential nomination.

Mrs. Gifford Pinchot wife of Pennsylvania's governor who sat next to the president, said she found him a "charming host."

"We all had a good time," said Gov. Albert C. Ritchie of Maryland, another Democratic presidential candidate.

ations would be postponed indefinitely.

COMPLETE PLANS DISTRICT P. T. A. CONFERENCE HERE

MUSICAL AND SPEAKING PROGRAM ARRANGED; ST. THOMAS DEAN TO LECTURE

Plans for the 12th district conference of Minnesota Congress of Parents and Teachers have been completed. The conference convenes here Saturday, April 30 with all sessions in the Washington high school and Mrs. T. E. Jones, district chairman, presiding. Registration begins at 9 o'clock.

Luncheon will be served at 12:15 o'clock at Archers' cafe and dinner at 3:30 o'clock also at Archers, with Dr. A. K. Cohen, master of ceremonies. During the dinner hour, the Harmony Four quartet, consisting of John M. Bye, Wm. Anderson, Al Mrsz and Melvin Bredenberg, will sing several numbers and Marion Newman will give an oration "Born Rich." Mrs. H. W. Froehlich, 3rd vice president of the state organization will talk about the national convention to be held in Minneapolis in May.

After dinner, the gathering will assemble in the high school auditorium where the newly elected officers of the district will be installed, and the remainder of the program will be turned over to Lester Pierce, Dean of Men, St. Thomas College, St. Paul. Dean Pierce's subject: "That Delightful Fellow, the American Boy."

Pierce brings with him James Carney, Duluth, violinist, George Langeland, Minneapolis, pianist; Richard Kaiser, St. Peter, Minn., cellist, and Arthur Huth, St. Paul, vocalist, who will play a varied program of instrumental and vocal music. The trio will play "Liebestraum" by Franz Schubert and Arthur Huth will sing "All For You," "Trees," "Homing" and "Dinnitai Mia" from the "The Butterfly." He will sing these numbers in two groups.

All persons interested in Parent-Teacher work are invited to attend any and all sessions of this conference. Local associations may send their four principal officers and one delegate for every 25 members. These delegates compose the voting body of the conference. Visiting delegates enjoy all privileges of the conference except making motions and voting.

3 1/2 MILLION DOLLARS SPENT YEARLY IN BRAINERD REGION BY TOURISTS

Value of the tourist business to Brainerd and the subscription of members of the Chamber of Commerce, which appear almost insignificant in the face of undisputed returns of approximately three and a half million dollars, sounded the opening gun in the Chamber of Commerce drive for funds to carry on its activities for the ensuing year.

While the actual drive will not get under way for several weeks, President Frank Russell laid the foundation for what is hoped to be the greatest response in the history of the organization at the regular meeting Wednesday night. Citing facts and figures to substantiate the assertion that three and a half million dollars are spent in the Brainerd lake region annually by tourists, Russell pointed out the need for more funds to carry out a more comprehensive exploitation program to enable Brainerd, as he declared, to maintain its hold on the tourist business.

"Eighty-two million dollars are spent annually in Minnesota by tourists," Russell emphasized, quoting figures compiled by state organizations. "With only eight tourists sections—one of them being the Brainerd lake region—sharing in this huge sum, it appears that the estimate of the amount spent in the area is indeed conservative. Bank deposits and individual reports of business during the tourist season also were taken into consideration and bear out the authenticity of the estimate," the president told the members.

"The Brainerd lake region is looked upon with envious eyes by other sections in the state. It has become known as the fastest growing resort community in this section. If we are to maintain this hold and expand our efforts to maintain it, we must extend our efforts to materially increase our revenue from the tourist we must extend our efforts for exploitation of the vast and great array of natural endowments. To do this we must have more funds," Russell declared in his effort to arouse enthusiasm in the Chamber of Commerce movement.

Russell's talk followed the arrangement of a conference between real estate and building material agents with the committee named recently by the Chamber to promote the sale and development of lake property. A cooperative arrangement between these bodies is the aim of the Chamber.

Rumors that Highway No. 2 would be rerouted to skirt this city instead of coming through it were dispelled when reports were read from highway officials declaring that the department had nothing of this view in mind and had not even considered such an undertaking.

"In his threat to veto proposed cash payment legislation," points out Commander Hall, President Hoover appeared to be exceedingly worried about the dangers of an unbalanced national budget.

"This matter of unbalanced budgets has been haunting the lives

of thousands of veterans ever since they came home from the service in 1918 and tried to find the jobs that were supposed to be waiting for them.

"Moreover, in his anxiety over the possible loss that might be suffered by the wealthy due to increased taxation, Mr. Hoover completely overlooks the fact that more than two million veterans are threatened with the loss of 50 per cent of their adjusted compensation.

"The Veterans of Foreign Wars of the U. S. intend to push this cash payment campaign to the very limit. We do not believe it was the intention of Congress, when this act was passed in 1924, to deliberately profit through the extension of loans to the veteran. The practice is unfair and the principle is altogether un-American from every angle."

LONG, LONG AGO The Hudson River once flowed southwest, crossing the Palisades and Watchung mountains of New Jersey to reach Raritan Bay, rather than passing Manhattan Island on its way to New York Harbor, according to Dr. Douglas Johnson, of Columbia University.

SOCIETY

EDITED BY MARY HAWKINS

Entertainers for Grandson's Third Birthday Anniversary
Mrs. Steve Collins entertained a few friends Sunday afternoon in honor of her grandson, Carl Voles' third birthday.

A pleasant afternoon in a social way was spent by the guests. Mrs. Collins served luncheon at the close.

Surprise Party for Mrs. Clarence Voles

Neighbors and friends pleasantly surprised Mrs. Clarence Voles at her home in Gull River Wednesday evening. The occasion was in celebration of her birthday.

Card playing was enjoyed as the evening's entertainment. The ladies served a delicious luncheon. Mrs. Voles received many beautiful gifts.

Braierd Girl Has Part in "Faust"

Miss Mildred E. Johnson, daughter of Mr. and Mrs. Aaron Johnson, recently participated in the opera "Faust" which was given at the St. Cloud Junior high school auditorium under the auspices of the Teachers' College music department.

Miss Johnson, a student at the college, is spending this week and visiting in Brainerd.

Dorcas Society to Meet Friday Night

The Dorcas society of the Swedish Bethany church will meet Friday, April 29, in the church parlors.

A program will be rendered and lunch served.

The young people of the church are entertaining.

Mrs. Elmer Bikkie Hostess at Party

Mrs. Elmer Bikkie, 1406 Pine street, entertained the "Five Hundred" club of which she is a member Wednesday evening.

Two tables were played, with prizes going to Mrs. Thomas Wheeler and to Earl Fitzsimmons.

The hostess served luncheon at a late hour.

Methodist Epworth League to Meet Friday Evening

Members of the Methodist Epworth League will meet at the church Friday evening at 8:15 o'clock and from there start for a hike.

They will return to the parsonage at 8 o'clock. Light refreshments will be served there. A business meeting will follow, during which an election of officers for the coming year will be held.

St. Francis P. T. A. Program Announced

At the regular meeting of the St. Francis P. T. A. Friday evening the following program will be presented:

Leading—Dorothy Maghan.
Piano solo—Catherine Cleary.
Talk—Miss M. Bernard.
The speaker is an instructor in the College of St. Sebastian, Duluth. Sister Bernard's talk will be on "Christian Education in the Home."

The teachers of the St. Francis school will entertain. At 7:30 o'clock the meeting will be called to order.

A large attendance is desired.

Miss Mabel Jean Kappa Delta Pi

Miss Irene Mabel, who recently graduated from St. Cloud State Teachers' college, returned from that place after attending a banquet in the Green hotel.

At the annual meeting of the national organization, was formed. The new chapter, the Kappa Delta Pi, is composed of thirty members.

Mr. McCracken of Ohio University was present to install the new officers. Thirty members compose the new group.

George Selke, president of St. Cloud State Teachers' college, and E. Paul, an instructor, were asked to affiliate themselves with the new chapter in order to take part as active members.

70 ATTEND SEED, BULB EXCHANGE

A drizzle did not prevent flower growers in the county from attending the annual flower exchange Friday afternoon. The attendance at 2:15 p. m. at the meeting in the farmers' room of the court house was 70 men and women.

The majority of people brought seeds and bulbs for exchange.

Included in the afternoon program were two lectures. Mrs. J. A. Thabes, Sr., lectured on Minnesota birds, particularly those who make their homes in this county. County Agent E. G. Roth discussed the value and methods of planting flowers and shrubs.

O'Hara Bemoans Last Irish Plays

"Finding good Irish plays is hard work nowadays," according to Fiske O'Hara, the Irish singing actor, who is to be the attraction at the Paramount theater May 2 and 3.

"No one wants to write about Ireland as it really is," he says, "they want to write about a mythical Ireland no one believes in."

Mr. O'Hara can't understand why the modern playwrights don't see the great possibilities of such a play. "It is beautiful and has a wealth of material which would have one hundred times more appeal than some of the plays that are being produced today."

So until one good play comes along the genial Irishman is lending his voice and personality to the radio where he has just completed an engagement with the national wide hook up with the N. B. C. "Farm and Home Hour."

For his visit in Brainerd, Mr. O'Hara will appear at the Paramount in a new act called "A Glimpse of Ireland in Songs" with David Ackerson at the piano.

BARE ADDITIONAL PAYROLL PADDING BY CONGRESSMEN

Copyright, 1932, by United Press
Washington—Some of the most important figures in congress carry relatives, on the official payroll.

One of the most eminent of these disclosed Thursday is the Democratic leader of the senate, Joseph T. Robinson of Arkansas.

Confirms Information
He is allowed five clerical employees. They are selected by him and paid out of the senate appropriation. Three of these five are his relatives. One is a brother-in-law who is a bank president in Little Rock, Ark., and seldom comes to Washington. He is the senator's "contact man" in Arkansas. Another is the senator's aged mother-in-law. The third, a nephew, works regularly in the senator's office here.

Senator Robinson confirmed the information obtained by the United Press but did not comment.

This information is not cited to single out individuals. The practice is widespread, as revealed by the dozen or more sample names listed by the United Press last week.

The Republican leader of the senate, James E. Watson, also was asked if he had any relatives on the payroll. He said he had a niece on temporarily as a typist. Her husband was ill and out of work, he said. Others confirmed his statement that she was a competent and industrious worker.

Money is Petty
The money involved in these cases individually is petty. Senator Robinson's mother-in-law is paid \$2,580 a year. Though the government gets practically no return for it, the amount is insignificant in comparison with the millions frittered away in some other expenditures.

But congress itself is now working on the theory that if the leaks can't be stopped at the bungalow, an effort should be made to stop them at the apogee. It is debating a bill to cut the salaries of all government employees, some of them pitifully paid as it is. It is considering knocking out the Saturday half-holiday although it was introduced some time back on the ground that clerks would do as much work in a week if they got half a day off.

But it is not looking very hard around its own premises.

CHARGE THEFT OF \$100 NOTE FROM BRAINERD OFFICE

Olaf Johansen, Brainerd, was bound over to district court no charge of larceny in the second degree following a preliminary hearing before Judge J. H. Warner in municipal court Friday morning.

Johansen was released on bonds of \$500. The complaint charged that on April 8 Johansen took from a desk in the Hitch Realty Co. a note for \$100.

V. L. Hitch, of the Hitch Realty Co., told on the witness stand that the note involved a real estate transaction. He said Johansen offered two propositions, one a trade of an automobile and \$800 for the real estate, the other to redeem the note for \$75. He said that while he attempted to ascertain if the check for \$75 had funds to cover, Johansen put the note in his pocket. Later, Hitch declined to accept the check on the grounds that it was post dated, he said. When he requested the note back, Johansen walked out of the office, leaving the check, Hitch said.

Hitch testified he followed Johansen on the street asking him for the note without success. Questioning was conducted by County Attorney A. J. Sullivan. Attorney C. A. Ryan represented Johansen.

PROGRAM PARENT EDUCATION HAS 800 ATTENDANCE

The greatest desire for parent education in Brainerd was expressed Thursday evening when an audience of 750 mothers and fathers heard Mrs. Rebecca Nelson's illustrated lecture on "The Gift of Life" in the Washington high school auditorium.

A special invitation had been extended to the fathers, who took advantage and attended in large numbers.

Thursday evening's attendance, the number attending the same lecture Friday evening, and those enrolled in the classes May 12 and 19 will determine whether Brainerd will receive national honors for interest displayed in classes of this kind.

The committee in charge is enthusiastic over the possibilities of achieving honors and urges that record attendance be set Friday evening.

Mrs. Nelson will deliver the same lecture in connection with the film showing.

WHERE NOT TO CUT EXPENSES—

One of the biggest dangers threatening municipal governments in the United States today is that the demand for economy will lead them to try to save money in the wrong places.

Tax receipts are down in every part of the country. Everywhere the city fathers are discovering that budgets must be cut into very materially. Reductions are long overdue, and there is hardly an official in the land who isn't being made to realize the fact.

Unfortunately, though, one of the easiest places to make a saving is usually in the welfare department—the branch that has such things as playgrounds, swimming pools and the like under its charge.

To close a few branch libraries, to shut down a few playgrounds, to lock the gates on a few swimming pools, and to remove from the payroll the officials who were in charge of those services, is fairly easy—and terribly foolish.

It is perfectly safe to say that there is not a sizable city in the country that really has adequate playground facilities for its children. There is not a city whose library facilities are too extensive, especially at a time when many men are unemployed. There is not a city that has too many swimming pools or baseball diamonds or public parks.

This year all of these things are going to be needed as never before. Many families that went away on vacations last year will not be going away this summer.

Children will play somewhere, no matter what happens; if there are not enough playgrounds they will play in the streets. Young men who can't find jobs are apt to drift into the wrong sort of environment if the swimming pools and ball grounds and parks aren't open for them. Families whose recreation budgets have vanished will feel the pinch more bitterly than ever if the neighborhood library has been closed.

City expenses have got to be cut—but they mustn't be cut in the wrong places.

MARRIED WOMEN AT WORK—

The old outcry against the presence of married women on the payrolls of offices and factories is being raised anew these days. We are being told that married women should not be employed when there are so many men who cannot find work.

This, of course, rests on the old notion that the married woman worker is a worker because of a whim, or because she is looking for a little pin money for herself. It isn't generally realized that in the vast majority of cases she is working for the same reason that the married man is working—because she has to.

The U. S. Women's Bureau recently investigated married women who are working in the meat packing industry. It found out that only 3 per cent of them are working because they want to. All the rest are supporting themselves; most of them are supporting their families too.

RUSSIA'S AIR PROGRAM—

Dirigibles will be built in mass-production style in the shops of Soviet Russia before long, according to a recent announcement in Moscow. A government official declares the Russian government will establish a great network of dirigible lines and will turn out the huge ships in quantity, just as automobiles are turned out in the United States.

All of this will mean a great deal to the cause of aviation if everything turns out at the Russian leaders hope. However, people on this side of the Atlantic can hardly be blamed if they are a trifle skeptical.

The Russian workers have not yet demonstrated that they can successfully handle mass production methods even where such relatively simple products as tractors are involved. Are they likely to have any better luck with such intricate and delicately balanced things as dirigibles?

GET YOUR EYES OFF THE "TAPE!"

In commenting on the natural wealth and fundamental soundness of Latin America, the Committee on Inter-American Relations in a recent timely warning to investors not to be stampeded into dumping or trading South American securities at a loss to themselves, without the most careful analysis of all the factors in the situation, said:

"Too many holders of Latin American securities have their eyes on the bond market tape, and they are puzzled and frequently discouraged by the price changes from day to day that may show wide variation up or down. These variations have little relation to intrinsic values. The Latin American bond market is sensitive, as are all security markets, but the Latin American market is also 'thin,' that is, an order to purchase three or four bonds may cause a disproportionate increase in price and an order to sell the same number, an excessive decline. There is no abnormal liquidation of Latin American securities today and a continuance of this situation will be greatly to the benefit of security holders."

A BARREL OF TROUBLE!

the MAN HUNTERS

BY MABEL McELLIOTT

©1932 BY NEA SERVICE INC.

BEGIN HERE TODAY

SUSAN CAREY, an orphan who lives with her AUNT JESSIE on Chicago's west side, finishes her course at business school where she has met BOB DUNBAR, son of a millionaire. She secures temporary work as secretary to ERNEST BEATH, prominent architect. Susan has a moody young admirer in the person of BEN LAMPMAN, who is musical and glib. Aunt Jessie's grudging approval RAY FLANNERY, who works in the office across the hall, is an amusing, slangy girl and is friendly. Susan is almost in tears one day trying to copy a letter in an old-fashioned letter press when JACK WARING, Heath's assistant, appears and helps her. He is a flirtatious man and Susan has to resist his advances. Heath thinks she is encouraging Waring and is annoyed.

NOW GO ON WITH THE STORY CHAPTER IX

SUSAN came out of Ernest Heath's office shaken but serene. The dreaded interview was over and with it had gone her sense of wrathful shame. Jack Waring had apologized manfully, had taken the entire blame for the awkward scene.

All Mr. Heath had said to Susan was, "Waring has explained he was annoying you and has promised it won't happen again."

He had directed a cold, angry glance at the younger man, Waring, who evidently enjoyed the playing of this particular role, had made a gallant little gesture of defeat and accepted his dismissal with dramatically bowed head.

"That's all, Miss Carey," Heath had concluded. "And now will you take a letter, please?" It had been as simple as that!

NOTHING, Susan felt, would surprise her after the events of this altogether surprising day. Over and over again on the way home in a street car teeming with hot humanity she rehearsed the little scene. She could not help admitting that Waring had behaved rather well. But of course it had been his own fault, she assured herself.

Her cheeks burned at the memory.

"What did you say, Aunt Jessie?" Susan asked absently as she accepted from her aunt's startled hand the plate heaped with potato salad and cold ham.

Her aunt snapped, "I said that young fellow called twice tonight just before you got into the house and said he'd be out around eight."

"What young fellow?" Susan said, startled out of her daze.

Primly Aunt Jessie replied, "Mr. Lampman, of course."

Susan stared. "And you said—you told him it would be all right?"

Aunt Jessie sniffed. "I did," she said flatly.

Susan could scarcely believe her ears. The idea of Aunt Jessie sponsoring a young man was too preposterous. "I wish you hadn't," she demurred. "I'm tired and look a wreck and besides he bores me to tears."

"He is a very nice young man," Aunt Jessie said levelly. "I think the only way you can do is show your manners when he takes such an interest."

Susan's curiosity was piqued. "How do you know he's nice?" she asked.

Aunt Jessie tossed her head. "I forgot to tell you he came over the other night when you were at Rose's and we had a real nice visit. I declare, I don't know when I've

Susan bathed and got into fresh clothing.

met such a steady-going, sensible boy. Susan lowered her lids to conceal the imp of mischief dancing in her eyes. She was annoyed, none the less. Wasn't it just like Aunt Jessie, she thought, to sponsor Ben?

Warily she dried cups and plates and knives and spoons. In silence she dawdled to her room. She hated the thought of entertaining the moody young man Aunt Jessie had chosen for her to smile upon! She could not, this once, fathom her aunt's motives. Usually Aunt Jessie shunned the bare notion of a suitor for Susan.

THE girl strained back her curls, creamed and splashed and rinsed her face. She bathed and got into fresh clothing. In spite of herself and her almost sullen determination not to feel better, Susan's spirits began imperceptibly to rise. She felt a sense of elation as she surveyed herself in the spotted, ancient glass of the oak dresser in her room. A fitful breeze, tiny and yet undeniably a breeze, swung her window curtains. It was good to be alive, to be cool and rested after the dreadful day, she decided.

Her mood changed. Why shouldn't she, after all, be nice to Ben Lampman? Ray Flannery took every masculine sigh and glance as tribute. Probably Ray was right. Susan had noticed before this that the elusive attribute, charm, usually surrounded those lucky girls who were said by their mates to be "popular."

Popular! That terrific and overwhelming word on which the destinies of the young so often hung. Susan wanted to be popular, didn't she?

Well, then, why not begin by taking as a gift of the gods the admiration of Ben Lampman? Life was so strange, Susan re-

Aunt Jessie looked as if she thought Russians little better than the "Polacks" she disliked so much, but after a moment or two of consideration she grudgingly consented. "If you'll have Susan home by half past 10," she stipulated.

THE house in which the Strinsky lived was an old brownstone on the north side not far from Lincoln Park. Ben, who had been in New York, told Susan the place was just like Greenwich Village, and Susan believed him. She was a little awed at her good fortune in being introduced to such a charmed circle.

The main room of the Strinsky flat was a shock to her at first. The walls were painted with splashes of red and orange. There was a black corduroy couch in one corner and a samovar on a kitchen table that had been painted blue. About the room on soiled cushions and on a few crude chairs were scattered the guests. Sonya Strinsky, who was a pale, oily-haired girl wearing a lavender smock, admitted them. She had long, tired, hazel eyes and her hand was limp. She did not in the least resemble Susan's notion of a Russian princess. The hall smelt of cabbage and there was a drift of smoke in the room through which Susan could just perceive the white blurs of faces. A gabble of voices rose. The place seemed intolerably hot. Sonya said to Ben, "You're just in time. They want to dance and you're to play for them."

The young man protested but was dragged to the battered piano in the corner and Susan left to fend for herself.

Susan's head began to ache and she wished she had not come. She began to suspect that perhaps she was not really seeing life, after all. A fat man, informally attired in polo shirt and white slacks, approached and asked her to dance. She did not even know his name.

Susan brought in a tin tray with drinks. Susan frowned over hers and left it untasted. She heard Ben's low voice, "You don't have to drink it if you don't want to."

She turned to him gratefully. He was looking anxious. No doubt Aunt Jessie had impressed him with her views. "I wouldn't dare," she breathed. She looked around her. The girl who was called Denise, the flower-faced one with the strange, red hair, was gesticulating with her cigarette and squinting through the little column of smoke.

It struck Susan for the first time that Denise was rather out of place in this shabby company. Her frock was exquisite, her shoes narrow and delicate and fine. The bracelet on her narrow wrist looked real and sparkling in the dim light.

Ben glanced carelessly across the room. "Oh, her!" he said casually. "She's a society girl from Winnetka or some place. Sonya picked her up at a club. Guess she thinks she's slumming."

Susan gave Denise an envious glance. What strange tastes some people had, the girl reflected. This stranger who might be sipping iced tea on some veranda high above the lake chose to spend a stifling summer evening in the broiling heart of the city in a stuffy room.

The red-haired girl glanced across at Susan as though their thoughts for an instant met and clashed. Denise's strangely compelling eyes, set like aquamarines under penciled brows, met Susan's with a look almost proudly disdainful.

Susan felt a flash of prescience. She shivered a little. Somehow she knew that Denise would cross her path again.

THE OPEN FORUM

To Editor Daily Dispatch:

Generally at this time of year we are looking ahead to another harvest and are planning our gardens, setting out our incubators and hoping to do just a little better than the previous year. But after such a poor year one gets discouraged. What is the use of all this work for nothing?

Let's let those who want cheap vegetables, eggs, poultry and fruits raise their own. If we have a few things to sell we must make about three trips to town to sell or give away something. If one gets 4 1/2 cents a pound for dressed veal after making three trips to town what is gained?

Some of you city people ask your butcher for some of that cheap veal or for some of those 7 cents or 9 cents a pound chickens and see what you pay. You pay for the whole chicken less the feathers and blood and that weighs very little.

The freight to Chicago and then some must be deducted from our potato price even though the potatoes are eaten in Brainerd.

In short the merchants try to make just as much for weighing and wrapping a package as we do for producing that product. I'd really be ashamed to offer a farmer 7 cents a pound for a year old chicken. Why follow the Chicago market with one article if not with another? Do we hear anyone offering 80 cents a hundred for potatoes?

The tourist trade doesn't amount to much. I have seen tourists from St. Paul with potatoes, cabbage, carrots, bread, pies, coffee, rolled oats, etc., along. It looks to me a tourist is giving his pocketbook a vacation. They even bring their talking machines along and tramp down the grass having a free dance. Here's hoping they get some of those fish even if we can't. In summer farmers have little time to sit in a boat and wait for a fish to bite.

Merchants cite the facts that farmers have the most to eat and what they buy is cheap. Those cheap overalls, men's shirts, etc., are cheap. So cheap that they don't wear as they should. They have been made too long. They are worth no more than the price they bring. Even cloth sold by the yard hasn't the durability that it once had. One man owned up that he sold that kind of shoes to your girls because they wanted a new pair at least once a month.

About a month ago people came up here from St. Cloud and bought our hay. It wasn't that we got such a big price for it but it was better than leaving it on the meadows. Last year more than thirty stacks of hay near here burned by leaving it on the meadows. Here's hoping that St. Cloud needs potatoes.

If the merchants expect us to continue bringing in the dollars for Dollar Day they should get together and see that our products can be turned into money without us spending it all in gas on the roads.

MRS. J. P. DULLUM.

DRIVE FOR SAFETY

A recent nation-wide survey shows that more than 90 per cent of automobile accidents are caused by bad human judgment, human carelessness and human stupidity.

To aid in lessening the number of accidents the Brainerd Daily Dispatch will publish a series of brief, effective suggestions in driving.

By United Press

New York—American Tobacco Co. declared the regular quarterly dividends of \$1.25 each on the common and common class B stock.

Chicago—Chicago & Eastern Illinois railway reported net operating income for March totaled \$501, against a net operating deficit of \$68,839 in March, 1931.

Canton—The largest shipment of iron ore in two years was enroute today from the Lorain docks to the Hanton and Massillon plants of Republic Steel Corp. The shipment totaled 80,000 tons.

Rutland, Vt.—Rutland railroad reported for March net operating income of \$35,891, against a net operating deficit of \$2,143 in March, 1931.

Philadelphia—United Gas Improvement Co. declared the regular quarterly dividends of 30 cents on common and \$1.25 on preferred stock.

QUOTATIONS

I have in my cellar 2.75 per cent beer made under war time prohibition act, and I can vouch personally that it is not intoxicating.—Congressman William H. Stafford of Milwaukee.

A mistake in the choice of means is less reprehensible than doing nothing.—President Paul von Hindenburg of Germany.

I hear more and more talk of revolution every day. Men do not talk of revolution idly.—Congressman Martin L. Sweeney of Ohio.

I am deeply convinced that there is altogether too much talk. It is too serious a time to talk unless something serious and constructive is said.—Cardinal William O'Connell of Boston.

War builds war and not peace. The war to end war can never be.—Rabbi Stephen S. Wise of New York.

BARBS

From the looks of things, historians in Russia and Japan might as well start looking up arguments on which one started the war.

Russian newspapers say that Japan is looking for war. And, from this viewpoint, they seem to be looking in the right direction.

Theodore Roosevelt acted as referee in the Russo-Japanese war in 1904-5, but this time it looks as if the League of Nations will be the third party in the ring.

The official decision in that bout between the Japanese and Chinese at Shanghai seems to have been "no contest."

If China and Japan ever get in a real fight, the League ought to make Japan use 12-ounce gloves.

ATTEMPT TO WRECK TRAIN AS DOUKHOBOR WAR FLARES

Winnipeg, Man.—Bombing has again broken out in the Doukhobor areas in British Columbia.

An attempt to wreck the east-bound Canadian Pacific passenger train from Vancouver to Thrums, about 16 miles west of Nelson, B. C., was made late Wednesday night, when a high explosive, with a terrific roar, shattered the switch at a passing track in that vicinity. The train had just passed over the switch when the explosion occurred. No one was injured.

The switch was a total wreck, but no great damage was done to the track, and traffic was not interrupted. The blast shattered the switch timbers and split in two the heavy brass casting.

Determined efforts to identify miscreants responsible for a long series of bombings of school buildings and other structures, and tampering with railway tracks in the interior of British Columbia have been launched by the government with the announcement of a reward of \$2,000 for information leading to the discovery and arrest of those responsible.

Nelson, B. C.—A pitched battle between members of the community of Universal Brotherhood and adherents of the Sons of Freedom faction of Doukhobors was staged at Brilliant, B. C. Doukhobor capital, this week. In the presence of a great concentration of Doukhobors from all parts of the district, the community carried out, or attempted, more evictions of Sons of Freedom families from community houses.

White Eagle Brings Out New Ethyl Gas

The White Eagle Oil Corporation is today introducing a new Banner Ethyl Gasoline at all White Eagle stations and dealer stations.

The trend to high compression motors in 1932 automobile models made a new Banner Ethyl advisable. The new fuel has a higher anti-knock rating, and is balanced for faster pickup, increased power and a cooler motor.

The radical stepping up of compression is one of the most revolutionary changes of recent years in the automotive field. To meet the changed requirements, White Eagle has also increased the high compression features of its regular Banner Gasoline.

New Banner Ethyl is announced in a display advertisement elsewhere in this issue.

'Freaks' is Coming!

Today! NEW BANNER ETHYL

with a Still Higher Anti-Knock Rating

High Compression is here! 1932 finds nearly every automobile manufacturer building cars in which high compression motors are either standard or optional! And the White Eagle Oil Corporation has kept step. Now a New BANNER ETHYL Gasoline is ready with a still higher anti-knock rating so high as to bring out all the EXTRA performance in these new cars.

The tighter the gasoline is compressed, the more power is delivered. But regular gasoline cannot stand up under high compression. After a certain point, it breaks down. Power-waste results along with over-heating, harmful knocking, wear and tear on the engine. That's why a new, better motor fuel is necessary . . . and here it is! A new Banner Ethyl with a new and higher anti-knock standard. A new motor fuel that will not knock even in the highest compression motors of 1932.

The same qualities which make Banner Ethyl essential for new cars, give older cars renewed life. You will immediately notice a faster pickup, more power on the hills, a cooler, quieter and more responsive motor. The price of this NEW BANNER ETHYL is no more, yet it saves dollars in the long run. Stop at your nearest White Eagle station and fill up with Banner Ethyl. Don't miss this big improvement—full power, more power from every gallon!

DETROIT FALLS TO THIRD WITH LOSS TO BROWNS 5 TO 4

New York—Failure of the three mighty pitchers, whose work impelled the rush of the Philadelphia Athletics to their three successive American league pennants, seems the outstanding reason for the A's slide to the seventh rung in their circuit.

Connie Mack has depended on George Earnshaw, Lefty Grove and Rube Walberg. He has started them in 10 of the dozen games played this season. But they have lost seven of those 10.

The individual performances of this trio place each man in the red. Earnshaw won one and lost two; Grove did likewise, and Walberg won one and lost three.

Rube Walberg went down to his third defeat Thursday when the Washington Senators blasted him from the mound in the seventh. The Athletics lost 10 to 4.

The St. Louis Browns pushed the Athletics out of sixth place by beating the Detroit Tigers, 5 to 4. Washington rose to second position and Detroit dropped to third.

Aided by the three-hit pitching of Lefty Gomez, the New York Yankees took a firmer hold on first place by beating the cellar-holding Boston Red Sox, 5 to 1. Danny MacFayden allowed the Yanks 10 hits.

The Cleveland Indians swamped the Chicago White Sox, 11 to 2. Earl Averill made his fourth homer.

In the National league, the champion St. Louis Cardinals dropped back into the basement, losing 12 to 7 to the top-rung Chicago Cubs. A 6-run rally in the seventh featured the Cubs' victory.

Max Carey's Brooklyn Dodgers rose from the cellar by overwhelming the Phillies, 11 to 5. The Flatbushers staged a 6-run rally in the third.

The Cincinnati Reds beat Pittsburgh's Pirates, 7 to 6. Babe Herman homered in the sixth for the Reds.

New York at Boston was frozen out.

Yesterday's hero: Vernon Gomez who held the Boston Red Sox to three hits, while the Yankees won.

Athletes Flex Muscles in Preparation for Drake Relay Carnival

In This Corner—Carpentier!

They say it's true that "Gorgeous Georges" Carpentier, the French boxer who once fought Jack Dempsey for the world championship, is planning a come-back. Anyway, Georges is training in a New York gymnasium, and here you see him in his corner, with Irene Bordoni, musical comedy star, giving him encouragement.

WALKER OUTWEIGHED 28 POUNDS TO BATTLE CHICAGO KINGFISH TONIGHT

Chicago—The ring's bravest little warrior, Mickey Walker, a modern version of Stanley Ketchell, will give away weight, height and reach, to say nothing of years, and attempt to whip King Levinsky, the crude but dangerous Chicago clown, in a 10-round heavyweight bout in the Chicago stadium Friday night.

The spectacle of the chunky little Irishman outweighed about 28 pounds, 4½ inches shorter, with an inch and a half disadvantage in reach and almost 11 years older, charging into his bigger opponent will attract nearly 20,000 persons and approximately \$75,000.

During his nearly 12 years in the ring Walker has held the welterweight and middleweight titles and is bidding for a chance at the heavyweight championship. He faced a handicap of even greater proportions last summer when he held Jack Sharkey to a 15-round draw.

Since then Walker has fought only five rounds in three bouts and has engaged in a matrimonial venture, numberless New Jersey brawls along the banks of the Shrewsbury, and a roadside battle with a Red Bank filling station employee. Four weeks of hard training apparently have whipped him back

into fighting trim and he held a firm 7-5 favorite. He expects to weigh 171, a pound more or less, and Levinsky will scale 198 or more. Walker will be 32 in July and Levinsky has just passed 21.

Never artistic in the ring, Levinsky has developed a tremendous following because of his unorthodox style, his wild swings, his constant attempt to land his dynamite right and his willingness to fight.

2,000 ENTRIES IN RELAY AND SPECIAL EVENTS AT MEET

Des Moines—Runners, jumpers and weight throwers from a dozen states steadied their nerves and tensed their muscles today for what promises to be record-breaking performances at the 23rd renewal of the Drake relays.

Eager for recognition as material for the forthcoming Olympic games

Decatur, Ill.—Harvey Jester, Millikin university's volunteer one-man track squad, was hitchhiking his way Friday to the Drake relay carnival at Des Moines, Ia., to enter competition in the high jump.

Jester, a star on the Millikin track team last year, continued to train this spring although college authorities had abolished spring athletics at Millikin. No transportation was provided for his trip to Des Moines and accordingly he set out on the highway.

Jester's record of six feet one inch which won him second place as a freshman in the little 19 conference meet indicates he will be a dangerous contender.

more than two thousand athletes have entered the many relay races and special events.

Finals were scheduled in only one university event today—the distance medley relay—but preliminaries in others of the university class contests presented an opportunity for record-breaking performances.

Such names as Rhea of Nebraska in the shot, Burnett of Mississippi in the 100-yard dash, Saling of Iowa in the high hurdles and Nelson of Butler in the high jump were on the lips of followers of the sport as possible record breakers.

The carnival will reach a climax Saturday afternoon when finals are run in most of the major events. The mile relay, always the feature of the games, has a big entry list with favorites coming from the universities of Michigan, Missouri, Texas and Iowa.

The Drake games are held simultaneously with the Penn relays and generally speaking eastern schools compete at Penn while Drake draws entries from the midwest and southwest. This year university entries here include: Oklahoma, Kansas Aggies, Illinois, Purdue, Chicago, Minnesota, Arizona, Michigan State, Texas Christian, Mississippi, Nebraska, Northwestern, Michigan, Kansas, Wisconsin, Oklahoma Aggies, Missouri, Indiana, Notre Dame and Creighton.

Major John L. Griffith, athletic commissioner of the Western Conference, official starter today and Sherman Finger, track coach at Minnesota was referee.

Comes Within Foot of New Swimming Record

Los Angeles—Josephine McKim, slim young mermaid from the beaches of Southern California, came within less than a foot of defeating Helene Madison, Seattle swimmer who holds 47 records, as they churned to the finish line in a breath-taking 100-yard free style championship race at Olympic pool Thursday.

Nearly leaping out of the water in their effort, they were almost side by side a few feet from the finish. It was the closest Seattle marvel has come to losing a race in two years. The race featured the National Women's A. A. championships.

Her time was 1 minute 2 2-5 seconds, compared with her record of 60 seconds flat for the distance.

Eleanor Holm, Women's Swimming Association, New York, was first in the 200-yard medley, individual, in 4:27.2. Norene Forbes, Los Angeles Athletic Club, was second and Joan McSheehy, W. S. A., New York, third.

SAINTS TROUNCE TOLEDO AS KELS TRIM COLUMBUS

By United Press

The Kansas City Blues were only half a game out of the American association lead Friday, by virtue of a well earned 4 to 2 victory over Louisville in the season's opening game at the Blues' park.

Indianapolis, the league leader, meanwhile was dropping a 4 to 0 decision to the fourth place Milwaukee Brewers. The great pitching of Knott, who held Indian batters to three hits, featured.

The Blue hurler in the Louisville victory was Osborne, and he set the Colonels down with eight hits, while Kansas City batters were finding the offerings of Penner for 13 safe blows.

In other games St. Paul beat out Toledo, 5 to 2, but failed to move out of the league cellar, and Minneapolis slugged the way to an 11 to 5 triumph over Columbus. The Millers got 15 hits from the tosses of three Redbird hurlers.

TOP FLIGHT LOSES FAVORITE'S POST KENTUCKY DERBY

Chicago—The growing suspicion that Top Flight is too small and effeminate to win the Kentucky Derby seems likely to remove the unbeaten filly from the favorite's position before the bugle sounds at Churchill Downs nine days hence.

Winter book betting is largely based on 2-year-old form and Top Flight, by that token, has been stoutly backed by the majority of future bettors. Top Flight was unbeaten in seven straight starts and champion of her class as a juvenile but will not receive her first test as a 3-year-old until Saturday in the Wood Memorial at Jamaica.

4-H CLUB LEADERS TRAINING SCHOOL IN CITY MAY 11

KITTLESON TO LEAD SESSIONS
AND LIONS TO BE HOSTS
AT DINNER

With an expected attendance of 75, a leaders training school for junior and senior 4-H Club leaders in Crow Wing county, will be held in Brainerd, Wednesday, May 11.

Main sessions, morning and afternoon, will be held at the farmers' room of the court house. A. J. Kittleson, assistant state club leader, will be in charge of the instructive lessons.

The Brainerd Lions Club will entertain the leaders at a noon day luncheon.

Details are being arranged by County Agent E. G. Roth and County Club Agent Miss Mae Stephenson.

Bowlus Man Named Carriers' President

Little Falls—Leo Bentler, Bocwius carrier was elected president of the Moisson-Crow Wing County Rural Mail Carriers' Association at a meeting held in Little Falls this week. The women's auxiliary convened at the same time. Other officers named by the carriers were: L. G. Wilmut, Swanville vice president; C. Stroming, Fort Ripley, secretary; Charles Willenbring, Pierz, treasurer.

The carriers voted to hold regular meetings monthly, and decided to name delegates to the state convention at their next meeting in Ft. Ripley.

Attending the meeting were 50 members from Little Falls, Randall, Cushing, Moyle, Swanville, Ft. Ripley, Bowlus, Pierz, Long Prairie, Eagle Bend Villard, Glenwood, St. Cloud, Sedan and Menahga. Visitors included Mr. and Mrs. J. Perkins of Long Prairie, Mr. and Mrs. A. G. Olson of Eagle Bend, Mr. and Mrs. Charles Steiner of Menahga, J. W. Dobbin of Glenwood, L. A. Neel of Villard, Paul De Lay of St. Cloud and I. H. King of Sedan. Talks were given by R. S. Snyder of Little Falls and others. President Lamb presided.

Men Compete in Millinery Contest

Lake Edward—The 4-H club held a hard time party at the school house Friday evening. A large crowd attended and a merry time was had by all. There were relay races for all and a millinery contest for the men. Prizes were given for the best trimmed hat and it proved astonishing what men know about Paris styles. The 4-H members gave a delightful program and at the close of the evening a bounteous lunch was served. The club has organized their Kittenball team, electing Carl Bedore as captain. We are proud of our club. The club intends to stick to their slogan "to make their best better" and keep the loving cup they earned last year.

Arthur Smith has finished hauling the year's supply of wood for the school house.

Earl Bedore and Josephine Brenna are at home again. They have been staying in Brainerd, attending the high school, but will drive the rest of the school year.

Bud Still of Des Moines, Iowa, came to spend the summer. He is visiting at the Ed Cross home.

Mr. and Mrs. Charles Bedore and Josephine Brenna spent Saturday evening at the Taft Kirven home in Nisswa.

Mrs. Charles Bedore has been ill for the past seven weeks but is much improved and able to be about again.

Not Perfect—But Just About

There is no such thing as a perfect woman, according to Professor Lora Maxwell, physical educational department, Arizona State Teachers' College, Flagstaff, Ariz. But Sinha Sinha, 16-year-old sophomore shown above, comes nearest to physical perfection in the school. Professor Maxwell says. Sinha's measurements are: height, 63 inches; weight, 125 pounds; bust, 36 inches; chest expansion, 4 inches; calf, 13 inches; ankle, 8 inches; hips, 35 inches. She is a blue-eyed blond, wears a 16 dress, a size 5 shoe and is an all-round athlete.

Sinclair Refining Co. Uses Dispatch Medium

This newspaper has been designated with more than 200 others throughout the country to carry the Sinclair Refining Company advertising campaign—considered to be one of the largest, if not the largest, campaign to be carried on by any oil company during the ensuing year. Although newspapers will carry the bulk of the advertising, Sinclair will also use other media such as national magazines, and farm periodicals with a circulation total of more than 30 million American families. Three million Sinclair road maps will be distributed by Sinclair service stations throughout the United States.

The leading feature of the Sinclair campaign this year will be the publicity devoted to Sinclair Regular Gasoline, or "that fast-steppin' gas" as the men at the Sinclair refineries have taken to calling it. Sinclair is refining Sinclair Regular to a formula which was originally developed to give speedy acceleration for the congested traffic of great cities.

Another feature of the Sinclair campaign will be the Sinclair Motor Oil advertising with photographs picturing the huge reptilian beasts which roamed the earth millions of years ago. Sinclair officials claim that they have an entirely new basis on which to sell motor oil—the age of the crane measured in millions of years, as well as the removal of non-lubricating petroleum jelly. The slogan "Mellowed a Hundred Million Years" applied to one of their oils last year attracted a vast amount of attention. This year they have planned to sell another of their oils under the slogan "Mellowed 80 Million Years."

What Others Say

"Webster's New Standard American Dictionary is a most admirable internal arrangement and of a convenient form for handling. It is one of the most satisfactory dictionaries of which I have any knowledge, and I congratulate you on your success."—James R. Day, Chancellor Syracuse University.

"Well graded, comprehensive and carefully adapted for the purposes intended. The School Editions, in accuracy, conciseness, typography and convenience, surpass anything in that line, heretofore published. For ready help and everyday use on one's desk, this Edition leaves nothing to be desired."—James J. Keogh, Dean of St. John's Cathedral and Secretary Diocesan School Board, Milwaukee.

SIDE GLANCES

By George Clark

"Think yer smart, eh? Well, how many hits did St. Louis make in the last world series?"

ALMOST ALL MAMMALS have seven neck bones. In long-necked animals, the vertebrae are merely longer than those of short-necked animals. A giraffe has no more than a whale. In birds, however, the number is more variable. Humming birds have 14 to 15 neck vertebrae, ducks 16 or 17, and swans 25.

IN 1903, William W. Simpson, a missionary in China wrote to friends in the United States for potatoes with which to develop the American potato in China. A handful of Green Mountain potatoes were sent over, and it is estimated that a million Chinese were saved from starvation by eating the descendants of those first few tubers.
